Takayuki Makino, artist, graphic designer, photographer, and 3D graphic designer, announced that he is beginning work on an innovative 3D software product, V-Ray Next. The complete version of V-Ray, V-Ray Next, will be released in early July. Based on the PC-98 version, V-Ray Next includes a lot of features that were originally developed for V-Ray for Maya, a professional and multi-platform software product for the visual effects industry. The first version of V-Ray Next will be Windows-only, and the features supported will be sufficient for graphic designers, visual effects artists, and 3D modelers. V-Ray Next will be open-source, allowing users to modify source codes and make improvements through continuous development. I'm still waiting for a per-material lighting system for a "real" lightroom (could be a plugin, but not saying either) - there are actually very a few people using a per-material lighting

system, e.g. Vue, etc. and most people use the same "cheap" system of default global illumination with multiple lights of different colors & strength. gofishworks.info | United Kingdom | AEON is a world-renowned manufacturer of high-quality CAD/CAM software.
